Long Island

Trends East and West, the prevailing Summer South wind blowing from the Ocean cools every section

THE ISLAND is unique in every respect. Its natural beauties and perfect conditions are suited to all requirements. **Rest and Recreation, Sport and Pleasure, Agricultural and Industrial Pursuits,** and chief of all, **Healthy Homes** reached quickly and with comfort.

The train service is first-class in all branches. New coaches, new parlor cars and new hard-coal burning engines have been added to the Railroad's equipment this year. Dustless road-bed, cinder-ballasted and oiled. Fast express trains bring every section of the Island within easy reach of Greater New York.

Baggage carried by the Long Island Express from Greater New York direct to all points on the Island, if forwarded by Express, prompt delivery is insured; the necessity of checking, the annoyance incident to the care of the checks, and the employment of a local delivery, etc., is avoided.

This book of illustrations, reproduced from photographs, shows some of Long Island's manifold phases, and is presented with the compliments of the

LONG ISLAND RAILROAD COMPANY

in the belief that the "sun pictures" will describe better than words **Long Island's** many charms.

H. M. SMITH, Traffic Manager. H. B. FULLERTON, Sp'l Agt., Pass. Dept.
